Anglo-Persian Oil Company, Limited.

The TWENTY-SECOND ORDINARY GENERAL MEETING of the Anglo-Persian Oil Company, Limited, was held on Tuesday, the 16th day of June, 1931, at River Plate House, Finsbury Circus, E.C.2.

Sir JOHN CADMAN, G.C.M.G., D.Sc. (Chairman of the Company), presided.

THE SECRETARY (Mr. John Clark) having read the notice convening the meeting and the report of the auditors,

The CHAIRMAN said :

LADIES AND GENTLEMEN,

Will you allow me to take the Report and Accounts as read?

ACCOUNTS.

You will agree, I am sure, that the Balance Sheet discloses a very strong position. On the Credit side, our material assets in Persia show an increase of nearly £1,200,000, due to the installation of cracking units at Abadan. Such decreases as appear in the value of other assets are due to the ample depreciation which

To the Stockholders of

ANGLO-PERSIAN OIL COMPANY, LIMITED

DEAR SIR (OR MADAM),

In view of the publicity accorded to recent events in Persia affecting your Company and of the statements which have appeared in the Press by or on behalf of the Persian Government, the Directors consider it advisable to inform you officially of those developments, with a summary of the events which preceded them.

The following is the text, as cabled to the Board, of a communication delivered by the Persian Minister of Finance to the Company's Resident Director in Tehran dated 27th November, 1932:—

The Anglo-Persian Oil Company has been repeatedly informed by the Persian Government that the D'Arcy Concession of 1901 does not protect the interests of the Persian Government and that it is necessary to place relations between the Imperial Persian Government and the Company on a new basis which will provide for the

To the Stockholders of

ANGLO-PERSIAN OIL COMPANY, LIMITED.

DEAR SIR (OR MADAM),

Following the purported cancellation of the D'Arcy Concession by the Persian Government on November 27th, 1932, you were informed of the latest developments on the 6th December last, and were given a summary of the events which preceded them.

You were then informed that your Board "is and always has been desirous of settling all questions that arise between the Company and the Persian Government in a fair and friendly manner and in the broadest possible spirit consistent with its duty to endeavour to preserve a fair and just equilibrium between the interests of the Persian Government and of the Stockholders of the Company"; and that, in the very difficult situation created by the action of the Persian Government, your Board was anxious not to take any action or make any

The TWENTY-FOURTH ORDINARY GENERAL MEETING of the Anglo-Persian Oil Company, Limited, was held on Tuesday, the 11th day of July, 1933, at Southern House, Cannon Street, E.C.4.

Sir John Cadman, G.C.M.G., D.Sc., Chairman of the Company, presided.

The Secretary, Mr. John Clark, having read the notice calling the meeting and the report of the auditors,

The Chairman said :

LADIES AND GENTLEMEN,

As you all know, certain events of great importance to your Company have taken place since we last met, and it seems to me advisable to elaborate a little on what you have already been told about the difficulties that arose concerning our Concession before I proceed to refer to the Accounts. I do not propose to deal with matters of general history, since the two circular letters issued to you all in December and May last have kept you informed of the passage of events; nor do I intend to touch on any controversial aspect of the negotiations which, after a long period of time, are now happily concluded. I may, however, indicate that at one stage a difference, of which you are aware, arose between His Majesty's Government and the Persian Government, which brought our affairs before the world at the meeting of the League of Nations. Fortunately, through the good offices of the League, in which Mr. Benesh, the rapporteur, took a most able and tactful part, a situation was created which enabled the Company to resume direct contact with the Persian Government; and in this connection I would like specially to refer to the masterly manner in which Sir John Simon put the facts before the League.
